

# 4 Powerful Wavelengths + Multidirectional Vibration Plate

The OnLux MVP brings together two clinically effective modalities—LED light therapy and multidirectional vibration—for a more comprehensive healing experience. Used separately or together, each therapy enhances your body's ability to heal, reduce inflammation, and recover faster.

## OnLux MVP

Try the Next Evolution in Red  
Light Therapy

### Reimagine What Recovery Looks Like

- ✓ Wearable and wireless for freedom of movement
- ✓ 2-in-1 light and vibration system targets pain and inflammation at the source
- ✓ Intermittent vibration prevents adaptation, maximizing long-term benefit
- ✓ Hygienic shield option ensures comfort for every user

LED Light Therapy with  
Multidirectional Vibration  
Plate

# Breakthrough Clinical Study Validates OnLux

At the 2024 Annual Meeting of The Clinical Orthopaedic Society, a significant study was unveiled, demonstrating the clinical effectiveness of OnLux.

To view the complete study, scan the QR code below.

In each case, traditional treatment options had failed to provide significant relief. The introduction of OnLux Red Light Therapy marked a turning point in their recovery journeys.

OnLux LED therapy works at the cellular level, delivering meaningful results through advanced light wavelengths that target both surface and deep tissue recovery.

## Key Outcomes

- ✓ Increased blood flow and tissue oxygenation
- ✓ Reduced inflammation and swelling
- ✓ Pain reduction without dependency
- ✓ Faster return to mobility and performance

Combining LED and vibration therapy accelerates recovery by targeting both inflammation and circulation simultaneously.

## Key Benefits

- ✓ Promotes Targeted Pain Relief
- ✓ Works at Cellular Level to Enhance Recovery
- ✓ Increased Blood Flow/Circulation
- ✓ No Addiction/Dependency
- ✓ High Patient Compliance
- ✓ Improved Outcomes

## Key Features

- ✓ Dual therapy mode: LED + vibration, separately or together
- ✓ Intermittent vibration to prevent body habituation
- ✓ Magnetic snap-on controllers for ease of use
- ✓ Extended battery: up to 6 sessions per charge
- ✓ Optional transparent shield for easy hygiene
- ✓ Portable. Wearable. One-touch control.

Only 15 Minutes Daily. Drug-Free. Clinically Backed.

## What Is OnLux MVP?

The OnLux MVP is the next generation of wearable red light therapy. Built on the proven success of the original OnLux design, OnLux MVP adds a multidirectional vibration plate for even greater therapeutic benefit—without sacrificing comfort or portability.

## MVP (Multidirectional Vibration Plate) Benefits:

More Circulation

Less Swelling

Faster Recovery
